Thunderboard Accountant Anthony Lorenzo presented

- discussed the tax credits and how it can not pay coaches but can pay for support coaches.
- A common question is – is the money considered compensation or a gift. AIA rule states no gifts can be given but parents can collect money.
- Tax credit money goes to the district. Thunderboard website has a form called Tax Credit Expenditures for reference
- More discussion between accountant and parents for clarifications on

monies and how and where it can be used

- Discussion of Sponsorship vs Advertising. Best way to describe it: sponsorship is if it is strictly marketing of a company's name and products they sell. There is no endorsement of any kind. Advertising promotes something a company is doing ie 15% off with this ad.
- Special events need the costs tracked and what came in for the revenue stream and what has to get paid out to pay the costs of the event
- The thunderboard can support other charities.
